DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-8 and 11-32, drawn to an electronic money system and transaction method which uses electronic money, classified in class 235, subclass 380.
 - II. Claims 9 and 10, drawn to an electronic money terminal in which settlement and clearing are carried out by using electronic money, classified in class 705, subclass 17.

The inventions are distinct, each from the other because of the following reasons: the electronic money terminal of the electronic money system as discussed in claims 1-8 and 11-32 does not necessarily have to be an electronic money terminal in which settlement and clearing are carried out as discussed in claims 9 and 10 to be patentable.

2. Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the combination claims an electronic money terminal having withdrawal means and processing means wherein the subcombination claims an electronic money terminal

comprising various other elements including a settlement and clearing means and a dispatching means. The subcombination has separate utility such as for bill payment.

3. Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
